

Traer Municipal Utilities

WHO IS TRAER MUNICIPAL UTILITIES

At Traer Municipal Utilities, we manage the daily systems operations of the electricity, natural gas distribution, water, sewer, and internet services that Traer depends on and we provide local service and support you can count on. We adhere to the strictest safety standards and practices and receive ongoing training as mandated. Our local dispatch system provides immediate response times to service calls and emergencies.

If you observe any unusual or suspicious activity near our pipeline facilities or in the unlikely event an emergency occurs, please call us at any time using the number listed in this document.

More information on Traer Municipal Utilities can be found at: www.traer.net.

WHAT ARE THE SIGNS OF A NATURAL GAS PIPELINE LEAK?

- Blowing or hissing sound
- Dust blowing from a hole in the ground
- Continuous bubbling in wet or flooded areas
- Gaseous or hydrocarbon odor
- Dead or discolored vegetation in a green area
- Flames, if a leak has ignited

WHAT SHOULD I DO IF I SUSPECT A PIPELINE LEAK?

Your personal safety should be your first concern:

- Evacuate the area and prevent anyone from entering
- Abandon any equipment being used near the area
- Avoid any open flames
- Avoid introducing any sources of ignition to the area (such as cell phones, pagers, 2-way radios)
- Do not start/turn off motor vehicles/ electrical equipment

- Call 911 or contact local fire or law enforcement
- Notify the pipeline company
- Do not attempt to extinguish a natural gas fire
- Do not attempt to operate any pipeline valves

PIPELINE SAFETY

System failures occur infrequently along the nation's network of interstate natural gas pipeline facilities, and many of these are caused by damage from others digging near the pipeline. We watch for unauthorized digging, but we request your help to notify us.

ALWAYS CALL 811 BEFORE YOU DIG!

**Know what's below.
Call before you dig.**

PIPELINE LOCATION AND MARKERS

Pipeline markers are used to indicate the approximate location of a natural gas pipeline and to provide contact information. Aerial patrol planes also use the markers to identify the pipeline route. Markers should never be removed or relocated by anyone other than a pipeline operator.

IOWA COUNTIES OF OPERATION:

Tama

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.

You can also find out where other companies' pipelines are in your area by going to the National Pipeline Mapping System website at www.npms.phmsa.dot.gov.

EMERGENCY RESPONSE PLANS

An Emergency Response Plan is developed for each operator to contain, control and mitigate the various types of emergency conditions/ situations that could occur at one of our facilities. For more information regarding Traer Municipal Utilities' emergency response plans and procedures, stop by our office located at 646 2nd St, Traer, IA or contact Derek Gaydos at tmugas@traer.net.
